Assignment Submission Document

Name	Muhammed Turhan
Student ID	5661570
Repository URL	https://github.com/MuhammedTrhan/Task_Projects

How to use this document

- Check the Completed column for every assignment you submitted.
- Check the Bonus column if you completed the bonus requirements. Greyed-out cells mean that assignment has no bonus.
- Fill in the file path to the built executable so we can find your work in the repository.
- Use Notes for known issues, design decisions, or partial completion.
- [L] marks assignments that are part of the Running Project. These assignments still require separate unique executables.

Gate 1

Complete assignments 1a to 6d and reach 12 points to unlock the Midpoint Project.

ID	Assignment	Completed	Bonus	Folder / File path in repository	Notes
1a	Godot Editor Introduction [L]	X		running-project
